Work History

Deloitte — *Multinational services network*   October 2024 – Present
Senior Team Lead   *Hyderabad, India*

- Leading frontend development for a micro-frontend fintech application at Edward Jones, enabling seamless **portfolio management** for users.
- Overseeing frontend architecture, ensuring scalability, performance, and efficient integration with other micro-frontends using ReactJs and NextJ.
- Established a pre-push **Sonar Gateway validation process**, enhancing code quality and development workflows.

Medline | **Techverito** — *Medical supply manufacturer, distributor*   October 2023 – Present
Software Consultant   *Pune, India*

- Foundational team member who developed business-critical features, including a patients-per-day **census management system** that improved billing evaluation accuracy.
- Led the design and integration of scalable, **reusable UI components** using ReactJs and NextJS, aligning with enterprise architecture standards.

Growfin — *AR Automation Software*   May 2023 – December 2023
Software Engineer   *Chennai, India*

- Core member of innovative accounts receivable B2B software with active thousands of users, purpose-built for streamlining and **automating the receivables process** across teams using ReactJs and Antd.
- Developed strategies for automated email delivery, resulting in a **2.43% increase** in efficiency, and optimized the rich text editor to improve email/template management, reducing editing time in the web application.

Turbolab — *Business Intelligence Tool*   April 2021 – May 2023
Junior Frontend Developer   *Kochi, India*

- Key team member for delivering Multi-account **user notifications feed** for seamless notifications from other background activities.
- Leveraged React/TypeScript, GraphQL, REST APIs, Antd, and Apollo Client to deliver a high-performance frontend, seamlessly integrating with a Python/Django backend.

Education

SRM Institute of Science and Technology   August 2023 – Present
Masters in Computer Application   *Chennai, India*

Calicut University   May 2020
Bachelor in Business Administration   *Kerala, India*
